Raipur Zone Raipur (C.G.)**

Letter No. 526 /TenderCell/CE/PHED/Raipur Zone Raipur

Dated. 18/11/22

Corrigendum

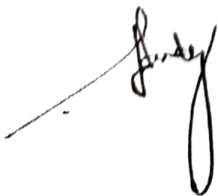

Subject:- Corrigendum of EOI No. 12/TenderCell/CE/PHED/Raipur Zone Raipur/Dated 08-09-2022.

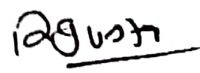

S.No.	Condition given by firms	Decision
1	2	3
1	We are locally situated manufacturer supplying UPVC pipe to your department through contractors since last 15 years. Our pipes are successfully tested since these years. We request you please give us financial qualification exemption to us (you had mention 50 cr. per year). we are local manufacture in Chhattisgarh and purchase policy of Chhattisgarh government also state that priority should be given to local manufacturer first. We are rate contract holder in Chhattisgarh state for 15years.	For the manufacturing units of the Chhattisgarh state, the minimum cumulative turnover shall be Rs. 25Crores for last 5years. For others, the minimum cumulative turnover required for last 5 years is Rs.50crores. For new manufacturing units (units established within last 5years) of the Chhattisgarh state, exemption of the turnover may be considered.
2	In Clause no. 2.10 of the EOI it is required that the manufacturer should also be an active manufacturer of Injection Molded PVC Fitting confirming to IS 7834:1987. This clause should be withdrawn as the requirement of fitting is very low compared to the project cost. The main fitting point is the socket end which is already built in the Bell Ended pipes. The other fittings like tee, bend, reducer etc are required in very small quantities and ISI marked adaptable fittings are available in the market. Neighboring states like MP and Jharkhand have done Empanelment but fitting is not mandatory there.	Yes, agreed.

Others points -

1. The application for the EOI has to be sent offline (only by speed post) latest by 5.30pm on 28/11/2022.
2. If the manufacturer is empaneled in other Govt. organization - he shall produce the certificate. However it is not mandatory for this empanelment.
3. Empanelment processing fee of Rs. 1,00,000 shall be in the form of FDR in favor of the Chief Engineer, PHED Raipur Zone Raipur.
4. Active Manufacturing certificate from industry department is a must.
5. Quality of the pipes as per IS norms will be strictly monitored (Post inspection-random sample will be taken from the field) through all levels of the Department. Company will be blacklisted and removed from the empanelment if pipes will not be of required norms.
6. CIPET opinion will be obtained before Empanelment

Other than above all terms & conditions as per EOI.
